MCN

Road racing is a sport that takes man and machine to extremes. These hard roads demand everything – total commitment, total faith – from those who race on them.

So what makes these men race? What is the fascination that the sport holds for the riders, their families and the fans? In *Hard Roads*, Stephen Davison – the world’s number one road-racing photographer and a man who has unparalleled access to the riders – answers that question. In his incredible photographs and accompanying text, he captures the essence of the sport – the all-consuming passion; the incredible skill and speed; and always, the spectre of death on the horizon.

*Hard Roads* is Stephen Davison’s unforgettable testament to the sport he loves, a book that captures the sense of the ordinary and the extraordinary that is the essence of road racing.
